

COORDINATION CHEMISTRY REVIEWS, VOL. 151 (1996)

AUTHOR INDEX

- | | | |
|------------------------|-----------------------|---------------------|
| Bauchspiess, K.R., 125 | Gielen, M., 41 | Sadler, P.J., 1 |
| Berners-Price, S.J., 1 | | Sargeson, A.M., 89 |
| Bertini, I., 145 | Hill, H.A.O., 115 | |
| Betteridge, S., 125 | | Viezzoli, M.S., 145 |
| Chan, P., 125 | Li, R., 53 | |
| Cremonini, M.A., 145 | Lozzi, I., 145 | Walton, S., 125 |
| | Luchinat, C., 145 | Wang, K., 53 |
| Dickson, D.P.E., 125 | Lu, J., 53 | Webb, J., 125 |
| Ferretti, S., 145 | St. Pierre, T.G., 125 | Williams, D.R., 161 |

SUBJECT INDEX

- | | |
|---|---|
| Anticancer complexes | Cage surfactant |
| The events that occur when cisplatin encounters cells 53 | The potential for the cage complexes in biology 89 |
| Antitumour drug | Carcinoma |
| Tin-based antitumour drugs 41 | Tin-based antitumour drugs 41 |
| Bioelectrochemistry | Cellular response |
| The development of bioelectrochemistry 115 | The events that occur when cisplatin encounters cells 53 |
| Biological speciation | Cisplatin |
| Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1 | The events that occur when cisplatin encounters cells 53 |
| Biom mineralization | Decontamination |
| Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125 | Wounds: decontamination and healing 161 |
| Cage complex | Detergent |
| The potential for the cage complexes in biology 89 | The potential for the cage complexes in biology 89 |
| Cage polymer | Dioxygenation |
| The potential for the cage complexes in biology 89 | Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145 |
| | EXAFS |
| | Synthesis, structure and magnetic properties |

of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

Ferritin

Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

Healing

Wounds: decontamination and healing 161

Hydroxylating enzymes

Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145

Marketing

The development of bioelectrochemistry 115

Metallodrug

Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1

Metalloenzymes

Arene hydroxylases: metalloenzymes catalysing dioxygenation of aromatic compounds 145

Metals

Wounds: decontamination and healing 161

Mössbauer spectroscopy

Synthesis, structure and magnetic properties of ferritin cores with varying composition and degrees of structural order: models for iron oxide deposits in iron-overload diseases 125

NMR

Coordination chemistry of metallodrugs: insights into biological speciation from NMR spectroscopy 1

Organotin compound

Tin-based antitumour drugs 41

Tin compound

Tin-based antitumour drugs 41

Wounds

Wounds: decontamination and healing 161
